PROFESSIONAL SUMMARY

Computer Science undergraduate skilled in Frontend Development, Data Structures, and System Design fundamentals. Experienced in building scalable applications and solving real-world problems through projects and hackathons.

EDUCATION

B.Tech – Computer Science and Engineering	2023 – 2027
<i>Galgotias University</i>	<i>CGPA: 7.6</i>
Class XII	2020 – 2022
<i>New Lancers Convent School</i>	<i>87%</i>
Class X	2008 – 2020
<i>New Lancers Convent School</i>	<i>84%</i>

SKILLS

Languages: Java, Python, JavaScript, C
Frontend: HTML5, CSS3, React, Tailwind CSS
Backend: Node.js, REST APIs
Database: SQL
Tools: Git, GitHub, VS Code
Core CS: Data Structures, Algorithms, System Design
Soft Skills: Teamwork, Adaptability, Communication Skills

PROJECTS

ASTRANYX Discord Music Bot	2025
- Built a Discord music bot serving 100+ concurrent users with features like queue management, autoplay, and 24/7 uninterrupted playback using Node.js and Discord.js. - Implemented 15+ slash commands for music control, cutting manual moderation effort by 80% and improving user response time by 3x.	
PC Optimizer	2026
- Automated 10+ system cleanup and optimization tasks on Windows, boosting overall performance by up to 30% and reducing startup time by 20 seconds on average. - Packaged as a single-file executable with 0 dependencies, enabling one-click deployment across 50+ machines without any setup.	
Portfolio Website	2026
- Designed a fully responsive portfolio achieving 95+ Lighthouse performance score, compatible across 5+ browsers and all screen sizes. - Applied 8+ UI/UX best practices including lazy loading and semantic HTML, reducing average page load time by 40%.	
Quiz Application	2024
- Engineered a Java-based quiz platform supporting 50+ questions with real-time input validation, automated scoring, and instant result feedback. - Refactored codebase using OOP principles across 10+ modular classes, reducing code redundancy by 40% and improving maintainability.	

ACHIEVEMENTS

- Solved 200+ DSA problems across LeetCode and GeeksforGeeks, covering arrays, trees, graphs, and dynamic programming. - Selected as Smart India Hackathon (SIH) 2025 participant out of 1000+ competing teams nationwide. - Completed Tata GenAI Data Analytics Job Simulation, analyzing 3+ real-world datasets using AI-assisted tools. - Earned Artificial Intelligence Certificate from Accenture, covering 5+ core AI/ML concepts and industry applications.
